## EXPERIENCE

### TREKCOMMUNITY LLC | WEB DEVELOPER INTERN

Sept 2019 – Nov 2019 | Mumbai

- Developed an E-Commerce module for the company.
- Day-to-day role included enabling the seller to add / delete / edit the products and their respective details.
- Wrote and reviewed code on Laravel, along with MongoDB and learned to use GIT.

## PROJECTS

### FLAUNT IT | COLLECTIBLE WEBSITE

November 2019

- Plenty of people adore having an extraordinary collection of any collectible. However not all people can catch a glimpse of the collection.
- FlauntIt allows a registered user to add the collection to their profile.
- Used node.js for the development.
- Implemented secured login system.
- This website is social media for the collections of collectibles.

### TODO APP | A REACT-NATIVE TODO APPLICATION

July 2020

- Todo is a lightweight android app that takes note of the to-do list of the user
- It is minimalistic with basic feature of add and delete a task from the todo list/
- The app is built on react-native as a learner of react and react-native

### CRYPTO NEWS | WEBSITE FOR EVERYTHING ABOUT CRYPTOCURRENCY |

April 2019

- CryptoNews is a lightweight website that shows various features of top 10 cryptocurrencies.
- The features are: real time prices, daily high, daily low and market of all the cryptocurrencies. Comparison between cryptocurrency can be done.
- The website is built on Django and the real time data is fetched using the API.
- This platform potentially helps increasing re-usability of books, reduces cost of buying new books and expands users' friends list.
